

INCENDIARY FIRE IMPERILS LIVES OF 100 FAMILIES

Blaze Kindled in Midst of Fifteen Tenements in Brooklyn.

DESTROYS BIG FACTORY.

Firemen and Police Get Panic-Stricken People, Half-Clad, Into Streets.

Fire in a two-story factory building that is surrounded by a loop of fifteen tenements, facing on Flushing avenue, Nostrand avenue and Wallabout street, Brooklyn, drove one hundred panic-stricken families to the street at 6 o'clock this morning and necessitated the calling out of reserves from the Cuyler street and Vernon avenue stations.

No one was in the long factory when flames belched from the windows on the Flushing avenue side. The police believe an incendiary fired the building. When the blaze was first discovered by the tenants in the Flushing avenue tenements it had complete possession of one wing of the factory.

Two alarms were sent in by a passing policeman, but before the fire apparatus began to arrive the neighborhood rang with the shrieks of frightened tenants. Scores of them rushed from the smoke-filled tenements, half-clad, and ran wildly about the streets. Many flung their household goods into the street until the pavements were piled high.

Had to Be Driven to Streets. There were others who refused to budge from their homes in spite of the scorch of the flames from the burning factory. The reserves had to drive the stubborn ones into the street, and then had difficulty in preventing them from dashing back again for their possessions.

Deputy Chief Binns arrived on the scene at the second alarm and at a time when the entire group of fifteen tenements was threatened with destruction. To save the tenements, it was necessary to stretch lines through them from Flushing avenue, Nostrand avenue and Wallabout street, wet down their rear walls and pour a flood of water upon the burning building.

With fifteen engines pumping, the firemen fought the blaze for more than an hour before the fire was beaten back from the tenements and kept within the four walls of the factory. The factory was completely gutted inside and burned itself out in its cracked shell of walls.

Many Attempts by Firebugs. The factory was leased by a clothing manufacturer and about \$5,000 worth of his stock was destroyed. For all practical purposes the building itself was ruined.

The police say that the immediate neighborhood of the fire has been infested with incendiaries for several weeks past. Time and again attempts have been made to burn down the tenements backing on the factory, but they were all caught in time.

When the fire had burned itself out, the dwellers in the tenements were permitted to go back to their flats.

GIRL ENDS LIFE BY GAS.

Employer of Three Days Knows No Reason for Suicide.

Kate Binder, twenty-three years old, a servant in the home of Mrs. Mamie Blumberg, of No. 25 West One Hundred and Twelfth street, was found dead in bed this morning with the tube of a gas stove in her mouth and the gas turned on.

She had worked for Mrs. Blumberg only three days and her mistress knew of no reason why she should have killed herself.

FIRE SWEEPS MINING TOWN.

Five Men Burned in Blaze That Threatens Millers in Nevada.

TONOPAH, Nev., March 18.—Five today swept Millers, a mining town twelve miles west of Tonopah. The Lindsay Hotel and adjoining buildings are in flames, and at noon the blaze is still making headway. Five men have been seriously burned. The loss is estimated so far at \$25,000.

Another George M. Cohan song with next Sunday's World from "The American Idol" now appearing at Grand Opera House.

Epilepsy or Fits Curable TEST THE KOSINE Treatment Without Expense

There is nothing more certain in a busy home than the fact that a member of the family is afflicted with Epilepsy or Fits. These attacks, which are so frequent to sufferers, are due to a diseased condition of the brain, and a cure is necessary for a number of years. The Kosine treatment is the only one that has been proved to be the most effective and the most reliable. It is a simple, safe, and effective treatment, and it is the only one that has been proved to be the most effective and the most reliable. It is a simple, safe, and effective treatment, and it is the only one that has been proved to be the most effective and the most reliable.

HID NURSES' DEATH FROM DYING PRIEST

His condition so critical that he could not be told that his sister, Mrs. Bridget O'Neill, who had been nursing him in his late illness, and her daughter, Louisa O'Neill, had both died since Monday, the Rev. John K. Keogh, rector of the Church of St. Thomas the Apostle, this city, died at the home of his late sister, No. 460 Orange street, Newark, early this morning.

Father Keogh was taken violently ill on a train that was bearing him from the South to this city three weeks ago. At Newark he was removed to his sister's home. Mrs. O'Neill nursed him constantly until ten days ago, when she became ill. She died last Monday. The task of nursing the stricken priest fell to the lot of Miss Louisa O'Neill, but she was stricken with pneumonia and died yesterday afternoon, just as her mother's body was being taken from the house.

Father Keogh had been unconscious since Monday, but he rallied slightly yesterday and asked for his sister and his niece, but those who were attending him feared to tell him the truth. He suffered a relapse last night. He was seventy-five years old and his death was attributed to a general breakdown.

A History-Making Glove Purchase Followed by a Bargain Epoch Glove Sale. \$3.95 Gloves at \$1.25 A Two-Day Sale Friday and Saturday

A Glove Sale of unprecedented scope—an intensely interesting event fairly alive with value-giving interest—incomparable because trade annals do not record a similar sale.

In fact, no sale has gone before and we can frankly say to you that no sale can possibly follow that can or will equal this occasion.

Of course in making this assertion we lay special emphasis on the high quality standard and we solicit judgment upon the character of the Gloves as well as the low price.

Here's the personal word of the Head of this House to you—You can say that these Gloves are not only absolutely perfect in cut and skins, but are of the highest class workmanship and material that is—that they are genuine French kid gloves, except in one limited line of pastel color, and the most skillful makers in France were employed in their production.

We say to you now—and the tremendous outpouring of glove buyers will prove it—that New York has never known such glove selling as will follow this announcement.

We're prepared though—our entire bargain aisle—six large tables besides our regular glove department will be given over to the selling—sizes will be arranged to promote quick choosing—an unusually large force of salespeople will wait upon you promptly. Every facility for wrapping parcels quickly and making change.

Five large Sixth Avenue Show-Windows will be used to display a part of the purchase. We want you to catch the importance—the magnitude and the full import of this great glove selling occasion.

Here's the whole story tersely told:—

An importer—commercial etiquette forbids mentioning the name—found himself in a position of having more long gloves on hand than he cared to carry through the summer months and knowing our immense high class glove outlet, he came to us in a "name your own price" mood—and we did. It's not only the largest single purchase, but the price named is the lowest ever recorded for high class French kid Gloves—hence the lowest retail price ever known.

With up to \$3.95. They are suitable for any length sleeve. Drawn up to meet the short sleeve or drawn over the long sleeve and wrinkled, or when you are tired of them as long gloves, cut them to any length you desire, and they are still cheaper than you can buy the shortest glove made for.

Black, white, tan, brown, pink, champagne, sky blue, biscuit, grey. Gloves suitable for every purpose—evening, afternoon, business, travelling, weddings and everyday wear.

Your choice of 12 or 16 button length kid gloves during this sale at . . . 1.25
